Hi Karen,

Yesterday I received three calls from citizens asking to talk with someone about the Dimock, Pennsylvania issue.

I talked to Bill and he indicated that I could send their names and phone number to you. I've attached their names below. If you could call them back, we would really appreciate it.

- (b) (6) (also can be reached at (b) (6) )
- (b) (6)
- (b) (6) (she's actually in New York State)

Thanks so much for your help !!

Wynne- Actually Mike D'Andrea in our RA's office is handling all these call. I will forward this to him for response  
FYI- CERCLA is attempting to take a response but it is being controlled by the Administrators office in HQ at this point Bethsada is the spokeswoman for these actually at this point so further calls can probably be sent to her.

Thanks Travis for the statement. I had 4 calls last week so I called my R3 counterpart. They told me to take the "name and phone number" of the caller ... and then send the information to Mike Dandrea so that he can call them back. Many of these folks have been asking for the EPA contact but I've refrained from giving them a name/number. FYI - Here are the emails I've sent Mike.

Subject: calls on Dimmock

---

There are a number of calls coming in regarding the situation in Dimmock, PA. I have received some of these myself. There is actually a Facebook page for Frack Action that has a campaign to call EPA, and has an 888-216-2811 number. Sometimes when I call that number it rings straight through to my desk! Anyone recognize that as an EPA hotline or something?

Anyway, Region 3 is the lead on this situation. For now, all we should do is read this approved statement and thank them for their input.

"EPA is working diligently to understand the situation in Dimock and address residents' concerns. We believe that the information provided to us by the residents deserves further review and we have been actively visiting homes to learn more. We are in the process of determining next steps and reviewing the information we have in hand as quickly as possible so that we are able to provide some answers to affected residents. We hope to share more information soon with residents, the State and Cabot."

Please share this with anyone else who may field these calls from the public.

Thanks.
